## GRADUATION

The student can apply for graduation once s/he has completed all the studies belonging to the Master's degree. The Application for a Degree Certificate must be submitted to the School by the given deadline. The student has to make sure all credits (including thesis and maturity exam) have been accepted and registered into the system by the given deadline (approx. 15 workdays before the intended graduation day). Please note that the results of the evaluation are given within 30 days of the exam or of the date the work has been submitted for evaluation.

**NB! In exceptional situations certificates are sent by post as a registered letter!**

\* In December, the University of Vaasa organizes a graduation event Publiikki for that month's Master's degree graduates.
